DETAILED ACTION

Allowable Subject Matter

1. Claims 1,3-10,21-25 are allowed.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 11-19 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 19-22 recite 'test software executable on the processor'. These claims merely recite software per se, which is not permissible under the Examination Guidelines for Computers – Related Inventions. The test software needs to be stored on a memory.
4. Claim 20 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 20 recites 'software executable on the processor'. These claims merely recite software per se, which is not permissible under the Examination Guidelines for Computers – Related Inventions. The software needs to be stored on a memory.

Response to Arguments

5. Applicant's arguments with respect to the rejection(s) of claim(s) 1-25 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made for the above rejected claims.
